AbsoluteApps allows organizations to securely host, remotely deploy, and distribute in-house applications and assists in recovery of iPads/iPhones if lost or stolen. The installation process only needs to be completed once. If you experience any issues with installing AbsoluteApps, call the Help Desk at 657-278-7777 or bring your iPad to the Academic Technology Center in PLS-237.

### Processing Steps

#### Step 1:
On your iPad, open the email on AbsoluteApps from the Information Security Office (ISO).

Tap the hyperlink included in the email.

#### Step 2:
The AbsoluteManage website opens in Safari.

Type your campus username and password in the appropriate fields.

In the domain field, type AD.

Tap Login.

#### Step 3:
The Install Profile screen opens in your Settings menu.

Tap Install.
### Processing Steps

<tbody>
<tr>
<td>Enter the security passcode for your iPad.</td>
<td><img src="image" alt="Installing Profile" /></td>
</tr>
</tbody>
</table>
### Processing Steps

#### Step 6:
A warning notification window appears.

Tap **Install**.

#### Step 7:
You may see the Installing Profile window for a few minutes.
## Processing Steps

### Step 8:
Once the installation is complete, lock your iPad by pressing the **Sleep/Wake** button at the top of the device.

Then press the **Sleep/Wake** button again and enter your security passcode to unlock the device.

### Step 9:
Tap the gray **AbsoluteApps** icon

You may need to scroll to a different page of apps to locate the AbsoluteApps icon.
**Processing Steps** | **Screen Shots**
---|---
**Step 10:**
A notification will appear in Safari.
Tap **Install**.

**Step 11:**
You will see a blue **AbsoluteApps** icon installing on your iPad.
This may take a few minutes, depending on your internet connection.
## Processing Steps

### Step 12:
Once the app has installed, tap the blue **AbsoluteApps** icon (лось).

The gray AbsoluteApps icon will be uninstalled once you tap on the blue AbsoluteApps icon.

### Step 13:
A notification appears asking you to confirm you wish to open the app.

Tap **Continue**.

### Step 14:
A notification appears asking if you wish to receive push notifications for AbsoluteApps.

Tap **OK**.

Push notifications allow CSUF IT to notify you of important security information related to your iPad.
